Name: Jeremiah Asala

CS5610: Web Development

Project 1

Design Document for Jeremiah Asala's Personal Portfolio Website

1. **Description of the website**:
   - Over the past year, I have had the opportunity to take some pretty interesting courses as part of the Khoury MSCS program @ NEU. Along the way, I was able to work on projects I really enjoyed. Nothing earth shattering, but nice little projects I enjoyed working on. It would be great to create a space to highlight and share some of the coursework and projects. Hence, the decision to build a personal website/portfolio.

2. **User Personas**:
   - Zoe is a University Program recruiter for Northeastern University at Meta. A huge part of her job is combing through hundreds, even thousands, of portfolios (including personal websites) looking for students who seem like good fits for software development engineering internship roles at Meta.
   - John is a professor at Northeastern University (Bay Area campuses). He is teaching CS5610 Web Development in the Fall 2022 and will cover the fundamentals of HTML & CSS during the first couple of weeks of the semester. He has assigned the project to build a personal website.
   - Aaron is a student at Northeastern University (San Francisco campus) taking CS5610 Web Development in Fall 2022. He is currently working on his personal website. After the submission due date of the project, he will get to see what his classmates built.

3. **User stories**:
   - As a recruiter, Zoe I would like to see a webpage that summarizes "who the student is" and "what they have been learning/working on."

- As a professor, John would like to see implementation of some of the concepts discussed in lecture and the assigned readings. He would like to see properly structured HTML content and beautiful styling with CSS and Bootstrap.
- As a peer (student), Aaron would like to see sections for academics, relevant experience, projects, extracurricular, awards/achievements, and resume.

Hi! I'm Jerry

I'm a master's candidate in Computer Science @ Northeastern University
